-at even lower prices

THESE Studebaker Motor Cars, on which new prices are herewith announced, are the identical cars which have given Studebaker tremendous sales volume and thereby lowered production costs.

New prices include all equipment now on our various models, except that bumpers, extra tire, cover and motometer are no longer furnished on Big Sixes.

There is no sacrifice in materials nor in workmanship. Studebaker has brought out no new yearly models built to sell at new prices.

These are the same Studebakers on which we were able to announce new low prices on January 8th of this year.

The following table forms a striking tribute to Studebaker's one-profit production.

REVOLUTIONARY PROPAGANDA

In his speech in Minnesota President Coolidge said:

"I doubt if you are aware of the amount of destructive revolutionary propaganda which is being secretly distributed in this country by foreign influence."

"If these people are not satisfied with our government and our institutions let them go where they can find a government which does satisfy them."

"I say to you and to all American citizens: Love liberty. Hold fast to the teachings of your fathers. These teachings of our constitution are the great foundation stones on which our fabric of government is built."

It would be well if the people pay some attention to the note of warning the President has thus soundly uttered.

The government is being adroitly conducted. Those who are engaged in this undertaking are well organized and have ample financial support.

Those who will suffer the most if they succeed are blind to what is taking place and some of them are unwittingly contributing their aid to bring about what these alien influences seek.

This is a good time for all patriotic Americans to be on their guard.—Express

GOOD-ROADS TO BRIDGTON

A Bright Cheerful Kitchen

For the real mother and home-maker the kitchen, nursery and bathroom rank as the three most important rooms in the house, not only in sanitary arrangements but in beauty and comfort. White walls and woodwork should be kept a pure white in order to maintain most bright and cheerful surroundings. Barreled Sunlight is the ideal for white paint for this purpose. It is cheaper than enamel and much easier to apply, can be washed and won't need repainting for years. Contains no lead, no varnish and dries with a hard, beautiful gloss.
